

CS411 Weekly Report

Iron Team TasteBuddies

Weekly Development Report # 3

Performance Period: Wednesday 1/29 - Tuesday 2/4

🔍 Group Accomplishments:

- 🍔 Updated our sprint breakdown and discussed our story and plan

🔍 Individual Contributions/Accomplishments: (to be filled out by each individual)

🍔 Colette Woods:

- 🔧 Logged into the VM and blinked a few times.
- 🔧 Attended impromptu team meeting to go over timelines
- 🔧 Worked privately on creating a decent graphical interface. Hopefully have something to show by Friday meeting

🍔 Grant Fitch:

- 🔧 Logged into VM and started experimenting with docker
- 🔧 Worked on sprint breakdown and updated with dates and milestones.

🍔 Ashley Barasebwa:

- 🔧 Attended meeting to go over timelines of Sprint Breakdown
- 🔧 Got assigned role of Back-end specialist

🍔 Ben Nissley:

- 🔧 Set up a digital ocean droplet in case we decide to use it for our app

🍔 Oronde Brown:

- 🔧 Logged into VM

🍔 Nathanael Donald:

- 🔧 Merged Ben and Nate's code and pushed to main
- 🔧 Got database semi-working on VM. Need to figure out how to manipulate it with a flask app.

🔍 Issues/Concerns: Examples below...

- 🍔 Virtual Machine: Is it having DNS issues, or are we just having trouble getting it to work?
- 🍔 Digital Ocean: Started up, begin testing to see if its smoother than the odu vm

Kommentiert [1]: try to push forward more over the next couple of weeks
